

## To setup Transport Route

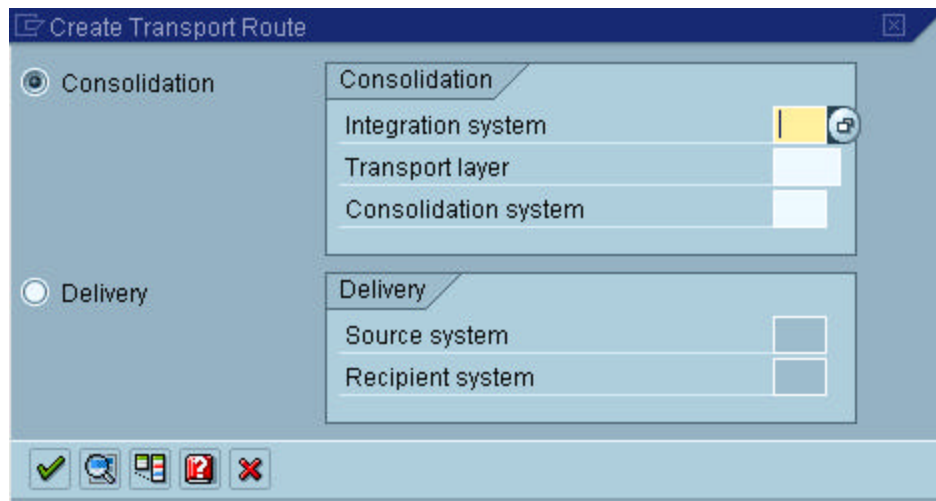

ON MRL System

Execute STMS Transaction

Select Transport Routes

Click  Change Button

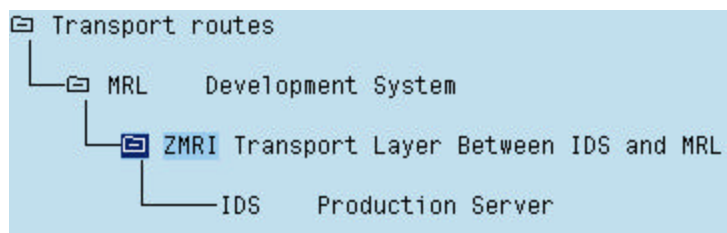

Click  Create Button

The 'Create Transport Route' dialog box is shown. It has two radio buttons: 'Consolidation' (selected) and 'Delivery'. The 'Consolidation' section contains three fields: 'Integration system' (with a yellow background and a lock icon), 'Transport layer', and 'Consolidation system'. The 'Delivery' section contains two fields: 'Source system' and 'Recipient system'. At the bottom, there is a toolbar with icons for OK, Cancel, Help, and other standard window controls.

Once you enter Required information

You will see following enteries under Transport Route

Click  Save the changes.

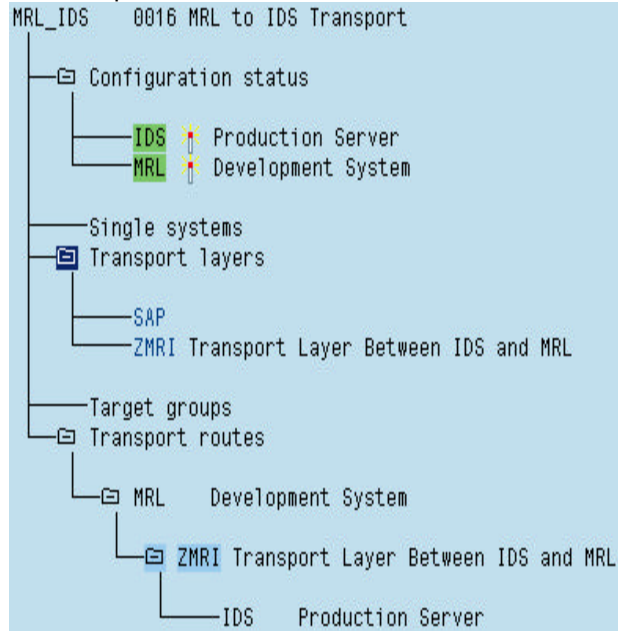

Click  Distribute the Changes

Check the Satus bar for the following message : 

Swith to IDS system and check for the same enteries under Tranport Route.

## Transport Management System
